

Hello hello!

This is the board giving you all a lovely welcome to this info page all about the ins and outs and working of our little band of merry folks. We thought it important to get to know a little bit more about how we do our thing and who we are because often in a lot of spaces and organisations the Board is a big scary mythical thing, pulling the strings like a scary puppet master.

Being an organisation of feminists we are always trying to change the way things happen and that includes how the board does their work. As a collective we seek to be open and engaging, fun and funky but all the while doing our job and making sure that we keep FRIDA's best interests at heart. This not only includes the staff, the money flying about but also you, the FRIDA community, be you a grantee, an advisor, a consultant or just a young feminist who has happened to stumble upon FRIDA's work, we are here to work with and for you. This section of the website is here to give you a little more insight into what we are all about and see how we are a bunch of feminists who form part of the fabulous FRIDA ecosystem.

*Love and solidarity,*

The FRIDA Board
